

Kenneth Gulmatico

Frontend Developer | React & Next.js

Davao City, Philippines (UTC+8) | Open to remote | +63 905 454 9950 | kenneth.gulmatico@hcdc.edu.ph

Portfolio: kennethportfolio-opal.vercel.app | GitHub: github.com/Daddyk5

PROFESSIONAL SUMMARY

Frontend developer and BS Information Technology graduate (2026) who builds production-minded web apps with React and Next.js, from real-time dashboards to AI-powered SaaS tools. Brings 1+ year of customer-facing technical support on an AT&T account, giving a first-hand view of the agent workflows that support platforms must serve. Freelance graphic designer with an eye for consistent, reusable UI. Uses an AI-assisted workflow to ship quickly and documents decisions so codebases stay maintainable. Meta Full-Stack Developer certified; AWS Certified Cloud Practitioner.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, HTML5, CSS3, responsive UI, component-based design

Mobile: Flutter, React Native (Expo)

Backend & Data: Python, Django (Meta certified), Hono, REST APIs, PostgreSQL, Supabase, Neon, Firebase

Cloud & Tools: AWS, Vercel, Git/GitHub, VS Code, Linux, jsPDF, AI-assisted development

Support & Security: Zendesk, Salesforce, Helpshift, network troubleshooting, SOC fundamentals

Languages: English, Filipino, Cebuano, Ilonggo

PROJECTS

Ping AI Pilot | AI Network Monitoring Platform

Next.js | github.com/Daddyk5

- Built an AI-powered platform that monitors network connectivity and delivers real-time ping analytics and diagnostics.
- Designed live-updating dashboard views that surface connection health and issues at a glance.

Prospect IQ | AI Lead Intelligence SaaS

React/Next.js | github.com/Daddyk5

- Built an enterprise-style SaaS that discovers, qualifies, manages and tracks business leads for outbound sales teams.
- Created data-heavy interfaces for lead pipelines and campaign tracking aimed at SMB and Canada-based markets.

LegalEase | AI Contract Analyzer (Capstone)

Android, AI | Holy Cross of Davao College

- Developed an AI app that analyzes Philippine contracts (deed of sale, loan, rent, lease) and explains them in plain language.
- Classifies enforceability (enforceable, void, voidable, rescissible, null), flags risk level, and saves PDF references.

Client Web Systems | 289 Saved By Grace JiuJitsu Ministry & St. Peter the Apostle Chapel

Next.js, Supabase, jsPDF

- Built a website for a BJJ gym and ministry covering programs, schedules, coaches, gallery and contact.
- Built a baptismal registration and archive system with staff passcode access, searchable records and one-click PDF certificates.

Little Lemon API | Restaurant REST API (Meta Capstone)

Django REST Framework, Djoser | github.com/Daddyk5

- Built a role-based API for menus, carts and orders with token auth, filtering, search and pagination.

PROFESSIONAL EXPERIENCE

Freelance Web Developer & Graphic Designer

Remote | 2026 - Present

- Deliver websites and web systems for community and church clients, from requirements to deployment.
- Design and edit documents, presentations and visual assets for clients and capstone teams.

IT Intern | Department of Social Welfare and Development (DSWD)

Davao City | 2026

- Supported IT systems and workflow processes for government operations.

Technical Support Representative | VXi Global Solutions (AT&T account)

Davao City | Oct 2021 - Nov 2022

- Resolved device and connectivity issues in a high-volume queue while maintaining first-call resolution.
- Processed warranty claims and documented cases in Zendesk, Salesforce and Helpshift.

CERTIFICATIONS

- Meta Full-Stack Developer: Front-End & Back-End, Meta via Coursera (2026) | AWS Certified Cloud Practitioner
- Cisco Security Operations Center (SOC), Coursera (2026) | CompTIA CySA+ CS0-003 Prep Courses, Pearson via Coursera (2026)
- HP LIFE, Simplilearn and Great Learning certificates, plus 25+ additional certifications
